

Dear Bicycle Tourers, Cyclocyclists!

On the website <https://www.bigcycling.eu/en/users/index/view/user/2849/>

, I am planning to complete the national challenges (NATACHAS) primarily in Slovakia, Romania, and the Czech Republic.

I have already done more than half of them in Romania.

In practice, this is done by going by car with my girlfriend to the bottom of the pass/mountain. We will climb up by bike from there and go down.

After that, we drive to the next destination. On the way, we will see the sights if time allows. So this involves a lot of driving, less cycling.

Not a classic bicycle tour with a tent. We plan to climb 2-4 passes per day, depending on the distance between the mountains and on the challenge of the climbs.

Accommodation in apartments, motels. We are not (wild) camping.

There was an example where we rented a bungalow for one night at a campsite. Because it was more favorable.

I have a Polish (Amos Giro 4 type) bike rack that can be attached to a towbar.

My girlfriend comes with an electric bike. That means, a maximum of 2 bicycles, i.e. two people, can come with me in my car. However, I can no longer take more electric bicycles!

Of course, anyone else can come with their own car.

Details of the passes and mountains follow.

The **place of departure** (town) and the **difference in level (DOL)** are marked in bold.

You can see the weather forecast for up to two weeks. So, this is how you can look for suitable weather without rain for the tour. Although it rains more often in the mountains anyway.

We are waiting for cyclocyclists to join us!
